**2nd Postgraduate STS conference
Lancaster University**

STS research in Lancaster is carried out in many different departments and disciplines. The aim of this conference is to provide a space for PhD students from these multi-disciplinary fields to present their research, receive feedback and learn about the variety of STS research that is carried out on their doorstep.

The conference will begin with a lecture by Annemarie Mol and continue over the following two days. The programme will include presentations from PhD students and Lancaster alumni who will present plenary lectures on their current research and career development.

Registration

£20 (Closes 10th January 2012)

Registration and further information can be obtained online:
